Dear Brian Bjelde,

I hope this letter finds you well. I am writing to express my sincere interest in the Software Engineer position at SpaceX, as advertised on your company website. I have attached my resume for your review, and I would like to draw your attention to additional content that provides a more comprehensive overview of my skills and experiences.

Portfolio Highlights:

1. **Face Recognition Project:** Developed a robust face recognition system incorporating machine learning and image processing techniques, showcasing my proficiency in AI.

2. **C# Projects:** Demonstrated my programming expertise through various C# projects, including desktop applications that highlight my attention to detail and commitment to delivering user-friendly solutions.

3. **Mobile Apps:** Contributed to the development of mobile applications, displaying adaptability and a keen understanding of the mobile development landscape.

4. **Python Programming:** Proficient in Python programming with experience in diverse projects, reflecting my versatility in handling different programming languages.

While my professional journey is just beginning, I am eager to apply my theoretical knowledge and hands-on experience to contribute to the innovative and groundbreaking projects at SpaceX. I am confident that my skills align with the requirements of the Software Engineer role.

Thank you for considering my application. I am enthusiastic about the opportunity to discuss how my background and passion for technology can contribute to the success of SpaceX. I look forward to the possibility of an interview.

Warm Regards,

Tariq Mehmood
